Chris Brown After the first 15 secs of selling the product, I was about to say "Shame they didn't use one of their robot voices on the video" AND THEN YOU SURPRISE ME telling me I AM listening to one of the AI voices. So I've opened the page in another tab, and about to go check it out. (As I am currently working on a sub titling program, I think this could be a good fit to offer as well)
